## Soccer Service

Metric Gaming has built on its SuperLive in-play Soccer pedigree to develop a feature-rich service designed to amplify the recreational customer experience.

Metric's Soccer Service utilizes best-of-breed content providers to deliver a competitive and configurable product offering, capable of quickly and coherently incorporating the latest betting features & content, such as Metric's fully automated Create-A-Bet product. All delivered through a single and convenient integration point.

Metric's Soccer Service provides a high degree of configurability for operators to be able to compete distinctly on Product, while Metric's highly experienced & specialist Soccer Trading & Analytics teams focus on delivering competitive margins & meaningful customer insights.
